Your customer _____ **Loan / Account #** _____

has moved from the state of _____ **to** _____

You now hold the lien against a   _____

Before your customer can obtain a PA Registration and PA License plate, a new Pennsylvania title must be issued in the owner's name. In order to do this, the title which you are now holding must be released to a PennDot authorized office. After the out-of-state title has been changed and registered in Pennsylvania, the new PA title will be electronically returned to you, still showing your lien (or your ownership, if the vehicle is leased!)

This procedure is in accordance with section 1133 of the Pennsylvania Motor Vehicle Code, which specifically reads: *"the department shall properly endorse….on a new Pennsylvania title which it then issues, the name(s) and address(es) of all secured parties, and shall mail the newly issued PA Certificate of Title to the Lessor / Owner or the first lienholder listed on the certificate."*

LANSDALE FASTAGS & INSURANCE, LLC is a bonded, PennDot authorized, full agent office and has been properly licensed and approved by the state of Pennsylvania to issue new registrations and license plates. Therefore, your cooperation in promptly sending the title, allowing us to expedite this matter for your customer, would be appreciated. Please call us with any concerns.

Title request is being done with my knowledge and consent.
